PROFILE

I am a web developer with experience creating both front-end and back-end web applications.

SKILLS

- Javascript
- HTML & CSS
- React
- Node
- Postgres
- SQL
- Sequelize
- Express
- Bootstrap
- Heroku
- Firebase
- Stripe

EXPERIENCE

BLOCIPEDIA NODE APPLICATION

- Application that allows users to create, collaborate, and share wikis
- Used validation, authentication, and authorization to create the standard, premium, and administrator roles
- Integrated Stripe API to allow payment for premium access
- Integrated SendGrid to send account signup emails

BLOC JAMS REACT APPLICATION

- React application that allows users to play music organized by album
- Utilized HTML5 Audio and Event Listeners for playback
- Integrated Firebase as back-end service

BLOCCIT NODE APPLICATION

- Reddit-clone message board allowing users to create and edit topics and comments
- Utilized Sequelize to seed data
